

Redmine - Feature #33602

Add an interface to filter activities by user

2020-06-16 16:30 - Go MAEDA

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee: Go MAEDA	% Done: 0%
Category: Activity view	Estimated time: 0.00 hour
Target version: 4.2.0	
Resolution: Fixed	
Description	
<p>The activity page already has a feature to show the activities of a user, but there is no UI to do it on the page. You have to go to the profile page of a user (/users/:id) or rewrite the URL by hand.</p> <p>It would be nice to be able to select which user's activities are displayed on the Activity page, like Trac.</p> <p>trac-timeline-by-author.png</p>

#2 - 2020-07-16 07:13 - Mizuki ISHIKAWA

- File feature-33602.patch added

I will attach the patch.

I wrote the code to generate user options based on the code to generate the Author options in the issues filter(Query#author_values).

#3 - 2020-12-28 03:48 - Go MAEDA

- File user-field-on-activity-page.png added

- Target version set to Candidate for next major release

Here is a screenshot of the patch posted in #33602#note-2. In the sidebar, you can select a project member to show activity.

I think this could be a nice addition. Nonetheless, its implementation is actually still incomplete as the activity view accepts *any user* instead of only users who are *project members* (which is also true for the author issues filter, btw). OTOH, I don't know what the best way to solve this issue completely is (as adding *all users* to the select tag is not feasible).

Although the patch lacks a feature to select a user who is not a member of the project, I think it is useful in most cases even if the feature is not available. As you pointed out, issues filter does not have the feature too.

I think it would be better to merge this patch first, and then discuss the ability to select non-members as an additional improvement. What do you think?

#7 - 2021-02-18 15:32 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#8 - 2021-02-21 02:45 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch. Thank you.
