Redmine - Defect #33629

403 on Versions via API and individual versions via WebUI and API

2020-06-18 17:07 - Severin Schols

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Permissions and roles		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	4.1.0

Description

When trying to get a listing of the project's version or information on an individual version via the API, Redmine replies with a 403 error. A similar happens when clicking a version, like in the file overview of a project, I get a 403 error as well.

My user does have permissions to edit versions for that project, I can see and modify them in the project's configuration. I have not found any other permission that might be missing here.

Am I missing anything, or is this actually a bug?

```
Environment:
  Redmine version                4.1.0.stable
  Ruby version                   2.5.7-p206 (2019-10-01) [x86_64-linux]
  Rails version                  5.2.4.1
```
