

Redmine - Defect #33634

The contextual navigation is not working erroneous

2020-06-19 12:16 - Alexandru Ghica

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues list	Estimated time:	0.00 hour
Target version:		Affected version:	4.1.1
Resolution:			

Description
My system

- Database manager version: MySQL 5.7.29
- Ruby version: 2.6.6-p146 (2020-03-31) [x86_64-linux]
- Rails version: 5.2.4.2
- Redmine version: 4.1.1.stable

The issue

The "« Previous" and "Next »" links found on any issue view are not working properly. While navigate, pressing previous or next, the issues counting is changing "randomly" and sometime the hole navigation disappears. I think this navigation is based on issues listing session or so but is not working as it should.

How to reproduce

1. Go to the issues list for all projects.
2. Click on an issue to view it, notice the pagination bar.
3. In a separate tab, go to the issues list for a different project than issues from 2.
4. Return back to the issue view from 2. and refresh - notice the pagination bar disappears.

History

#1 - 2020-06-19 19:03 - Vasili Korol

I can confirm the disappearing of the issue navigation controls. The problem is reproduced by following the described steps. The Redmine instance is running in Docker (official image):

Environment:

Redmine version	4.1.1.stable
Ruby version	2.6.6-p146 (2020-03-31) [x86_64-linux]
Rails version	5.2.4.2
Environment	production
Database adapter	PostgreSQL
Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter
Mailer delivery	smtp

SCM:

Subversion	1.10.4
Mercurial	4.8.2
Bazaar	2.8.0
Git	2.20.1
Filesystem	

Redmine plugins:

no plugin installed
