

Redmine - Feature #33641

Show badges that indicate author in issue journal, news comments, and forum replies

Resolution:			

Description

The attached patch adds badges to issue journal, news comments, and forum replies that indicate if the post is made by the author or the assignee.

I got the idea for this feature from Bugzilla and found it useful.

Issue journal:

The issue is added by John Smith, and the current assignee is Dave Lopper.

The similar feature of Bugzilla:

name conflicts are worth extra hassle.

The idea is nice. But what if the assignee changes? I personally would find the "jumping" "Assignee" badge confusing. Marking all previous assignees as "Assignee" would also look weird. An alternative solution would be to introduce another badge, smth like "Ex-assignee", but that'd produce too much info..

Maybe a separate badge for the assigned person isn't needed at all, since their avatar is already shown together with the author's. So, their status is kind of emphasized already.

Updated the patch. I have removed the "Assignee" badge from the previous patch.

#8 - 2023-01-25 08:13 - Go MAEDA

- File 33641-v5.patch added

- Subject changed from Show badges that indicate author or assignee in issue journal, news comments, and forum replies to Show badges that indicate author in issue journal, news comments, and forum replies

Updated the patch for [r22076](#).
