Redmine - Feature #3367

Copy versions/custom fields/wiki when copying a project

2009-05-15 23:43 - Kioma Aldecoa

Status:	Closed	**Start date:**	2009-05-15
Priority:	Normal	**Due date:**	
Assignee:	Eric Davis	**% Done:**	100%
Category:	Projects	**Estimated time:**	0.00 hour
Target version:	0.9.0		
Resolution:	Fixed		

Description

On the latest trunk, when copying a project from source->destination, the destination project does not have any versions, wiki, or custom fields, even if the source project did.

Also, issues in the destination project have versions that seem to point to the versions of the source project, which does not make sense.

Would expect the destination project to have a copy of the versions, wiki, and custom fields of the source project.

Associated revisions

Revision 2934 - 2009-10-19 02:07 - Eric Davis

Improved Project#copy to copy more data from the source Project. #3367

- Versions
- Associate the copied issues with the new versions
- Wiki
- WikiPages
- WikiContents
- IssueCategories

Revision 3164 - 2009-12-13 04:37 - Eric Davis

Copy issue relations when copying a project. (#3367)

Revision 3165 - 2009-12-13 04:37 - Eric Davis

Project custom fields are already copied via the Copy form. (#3367)

History

#1 - 2009-05-15 23:53 - Kioma Aldecoa

To be clear I am talking about the brand new feature in trunk to copy entire projects, ie:

- http://.../admin/projects
- Click copy -- http://.../projects/copy/projectname

#2 - 2009-05-17 10:14 - Jean-Philippe Lang

- *Assignee set to Eric Davis*

#3 - 2009-05-25 20:33 - Jean-Philippe Lang

Categories should be copied as well and issue relations too (#3402).

#4 - 2009-05-31 01:50 - Eric Davis

- *Tracker changed from Defect to Feature*

#5 - 2009-05-31 01:53 - Eric Davis

- Subject changed from Copying a project does not copy versions/custom fields/wiki of source project to Copy versions/custom fields/wiki when copying a project

- Status changed from New to 7

Changed this to a feature request; Versions and Wiki aren't included in the original copy project. The Issues linking to the source project Version versions would be a bug, but it will be fixed once Versions are copied.

I hope the copy function will copy the issue type setting, version planned

#7 - 2009-10-19 02:05 - Eric Davis

- Target version set to 0.9.0

- % Done changed from 0 to 70

I've updated the Copy Project to copy more data from the source project and fix the Issue/Version assignments:

- Versions
- Associate the copied issues with the new versions
- Wiki
- WikiPages
- WikiContents
- IssueCategories

I still need to get the custom fields and issue relations to copy across.

#8 - 2009-10-20 04:44 - Kioma Aldecoa

Do you plan to also copy issue statuses? I would vote for issue statuses to also be copied when a project is copied.

#9 - 2009-10-20 07:04 - Eric Davis

Yes but it will be part of [#3877](#).

#10 - 2009-12-12 11:56 - Jean-Philippe Lang

Eric, anything left to do on this?

#11 - 2009-12-13 03:23 - Eric Davis

Jean-Philippe Lang:

I think just the custom fields and issue relations are left. I'm going to start on them now.

#12 - 2009-12-13 04:31 - Eric Davis

- Status changed from 7 to Closed

- % Done changed from 70 to 100

- Resolution set to Fixed

Project Copy will now copy issue relations. Turns out that custom fields were already handled by the form. [r3164](#)

The values of custom fields in copied issues are not kept in the new project. Please reopen.
