

Redmine - Feature #3388

Split log file and auto archive

2009-05-19 18:24 - Gregor Bader

Status:	Closed	Start date:	2009-05-19
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:			
Resolution:	Wont fix		
Description Currently there exist only 1 log file under /log which gets bigger and bigger. It would be nice and very helpful if there exist administrator options to set some logfile splitting (day, week, month) and some option when to automatically archive/delete logfiles (e.g. delete after 1 month).			

History

- Status changed from New to Closed
- Resolution set to Wont fix

You can use dedicated tools like logrotate.
