<b>Target version:</b>	3.2.0		
<b>Resolution:</b>	Fixed		
<b>Description</b> How can I list assigned issues to the specified user? I know that I can see it on Issues tab and sort that, but if you have too many, you can't find them. Logically thinking should be on User Profile account/show/%, but it isn't.

Ah, yes, thanks, it will be lot easier.  
But it's possible to include on profile user what tasks are assigned to him?  
Sometimes you want to go to user profile from Issue Page to check what tasks has been assigned to him.  
It's a feature?

Maybe something like [PluginStuffToDo](#) would help?

#### #4 - 2010-01-11 18:39 - Tom Rochette

Redmine offers the possibility to add a block to the user's page which list all of it's assigned task. The only problem you might have is that is defined as a *per-user* basis, meaning that each users decide whether or not to put the block on their page. You could probably have some sort of plugin or modification add the block automatically to all users and make sure it's not removed.

#### #5 - 2013-03-17 19:15 - Ivan Cenov

There is a plugin that shows the assigned issues on the user page (not profile page): [https://github.com/klausmeyer/redmine\\_user\\_issues](https://github.com/klausmeyer/redmine_user_issues)

Example:

<http://redmine.ourcompany.com/users/3>

#### #6 - 2013-03-17 20:28 - Daniel Felix

- Category changed from Documentation to Issues planning
- Target version set to Candidate for next major release

Yes this could be solved by a plugin but this seems to be a good addition to the core as this would help to get a much better overview over the current workload of a user.

Maybe this could be a release candidate?

#### #7 - 2013-03-18 20:15 - Ivan Cenov

You are right, this is very common practice, to see what is going on with some user (the boss or PM wants to see project members do). Well this plugin, expanded with more information could be core feature.

How about this patch to user's profile?

You can understand how many issues the user have reported or is assigned. And you can see issues list by clicking "Assigned issues" or "Reported issues" label.
