Description

In the project setting tabs the [DOM] have 2 elements with non-unique id #edit_project_1 which are in the _edit.html.erb and _issues.html.erb tab which both of them contains labelled_form_for Herve Harster.
In order to fix it i added

```
labelled_form_for @project ,:as => "project_issues_tracker"
```

in the _issues tab.

- Target version set to Candidate for next minor release

The change looks good, but I propose to use project_issue_tracking because the form handles settings related to Issue tracking module (attached a patch).
