

Redmine - Feature #34040

Include all notes in issue list csv

2020-09-28 06:49 - Mizuki ISHIKAWA

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues list	Estimated time:	0.00 hour
Target version:	Candidate for next major release		
Resolution:			
Description			
Currently, only the latest note can be output as CSV, but I think that many people need all the notes. Plugins for that are also being developed. https://github.com/suer/redmine_export_with_journals			

History

#1 - 2020-09-28 06:54 - Mizuki ISHIKAWA

In order to implement this feature, we need to think about how to include notes in CSV.

My idea:

#	Tracker	Status	Priority	Subject	Assignee	Updated	Note-#	Notes
3	Bug	New	Normal	Private issue on public project		09/08/2020 01:40 PM		
3							1	test1
3							2	test2
3							3	* test3 * test4
2	Bug	New	Low	Subproject issue two		09/01/2020 11:27 AM		
1	Bug	New	Low	Cannot print recipes	User name	09/02/2020 11:27 AM		
1							1	The quick brown fox jumps over the lazy dog
1							2	Some notes with Redmine links: #2 , r2 .

I've added a column called Note- # to make note sorting work.

For a issue with the same id: 3, there are 4 lines with 1 line of ticket information + 3 lines of notes.

3							1	test1

I think an additional column that represents the user who wrote the note (stored as journals.user_id) is necessary.

And it is better to have journals.created_on and journals.private_notes.

#4 - 2021-09-02 07:22 - Mizuki ISHIKAWA

- File draft.patch added
- File screenshot.2021-09-02-13.59.56.png added

I have created a draft patch for people to try out this feature. I have not written any tests.
If you output CSV from issues list and check "All notes" checkbox, notes related information will be added to CSV.
"All notes" checkbox is available only for CSV output.
screenshot.2021-09-02-13.59.56.png

Feedback is very welcome!

#5 - 2022-02-15 08:12 - Mizuki ISHIKAWA

- File feature-34040.patch added

I'm attaching a patch that improves draft.patch.
Once this feature is implemented, it will be possible to easily retrieve note information without using the API.

#6 - 2022-02-15 09:05 - Mizuki ISHIKAWA

- File sample-issues.csv added

I attached is a sample csv that outputs the issues and journal notes created by rake db:fixtures.

#7 - 2022-02-20 08:49 - Go MAEDA

- Target version set to Candidate for next major release

#8 - 2022-08-02 11:45 - Go MAEDA

- File feature-34040-v2.patch added

Updated the patch for the current trunk ([r21752](#)).
