

Redmine - Defect #34068

Missing blank option on persisted records

2020-10-05 14:38 - Pavel Rosický

| | | | |
|---|----------------------------------|--------------------------|-----------|
| Status: | New | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | Custom fields | Estimated time: | 0.00 hour |
| Target version: | Candidate for next major release | Affected version: | |
| Resolution: | | | |
| Description | | | |
| <p>steps to simulate</p> <p>1/ add a new CF type key-value</p> <p>2/ set a default value and check a required attribute</p> <p>current behavior</p> <p>on existing issues without a CF value, there's always the FIRST value prefilled automatically. It's easy to overlook there was any change.</p> <p>desired behavior</p> <p>in this case, there should be a blank value and a user should be prompt to select something.</p> <p>the behavior should be kept for new tasks only where the blank value on required fields makes no sense</p> <p>a patch attached</p> | | | |
