Redmine - Patch #34150

Use match? instead of =~ when MatchData is not used

2020-10-22 04:17 - Go MAEDA

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Go MAEDA		**% Done:**	0%
Category:	Performance		**Estimated time:**	0.00 hour
Target version:	4.2.0			

Description

String#match? was added in Ruby 2.4. you can replace =~ with faster String#match? or Regexp#match? when MatchData generated by `=~` is not necessary.

The attached patch changes such =~ to mach?. I generated the patch with the following commands.

```
sed -i '' 's/TargetRubyVersion: 2.3/TargetRubyVersion: 2.4/' .rubocop.yml
bundle exec rubocop --only Performance/RegexpMatch -a
```
