Description			
Hi,			
It would be great if the user could view the "% Done" field for each related issue.			
I provided a diff file to show what we need.			
However maybe not everyone want to see this. That kind of information might be customizable in the settings, exactly like the "Default columns displayed on the issue list" page does.			
Thank you.

+1. Will be great to have.

Well if this gets included there should be a bigger solution which displays the state, progress, resolution, estimated time etc.

This could be handled by some link which request the additional information. I would prevent that there are too many database requests per issue view.
