

Redmine - Defect #34255

Adding new group results in Error 500

2020-11-12 18:59 - Sven Culley

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Database	Estimated time:	0.00 hour
Target version:		Affected version:	4.1.1
Resolution:			
Description			
When I try to add a new group (groups/new) I get an Error 500 with the following log message			
<pre>Completed 500 Internal Server Error in 15ms (ActiveRecord: 9.7ms) ActiveRecord::NotNullViolation (Mysql2::Error: Field 'mail_notification' doesn't have a default value: INSERT INTO `users` (`login`, `hashed_password`, `firstname`, `lastname`, `created_on`, `updated_on`, `type`) VALUES ('', '', '', 'Group name', '2020-11-12 18:55:38', '2020-11-12 18:55:38', 'Group')):</pre>			
Details regarding Redmine			
Environment:			
Redmine version	4.1.1.stable		
Ruby version	2.5.5-p157 (2019-03-15) [x86_64-linux-gnu]		
Rails version	5.2.4.2		
Environment	production		
Database adapter	Mysql2		
Any suggestions on how to get this fixed?			

History

#1 - 2020-11-12 20:28 - Pavel Rosický

Setting.default_notification_option is probably blank for some reason? that should never happen

take a look if the default value is present in your database and config/settings.yml

any 3rd party plugins?

#2 - 2020-11-12 21:11 - Sven Culley

Code in settings.yml

```
default_notification_option:
  default: 'only_my_events'
```

Full redmine info

```

  view_customize       2.7.0
```

#3 - 2020-11-12 21:44 - Pavel Rosický

what is the result of

```
rails c p
Setting.default_notification_option
=>
```

?

try it without plugins

#4 - 2020-11-13 06:22 - Sven Culley

```
Loading production environment (Rails 5.2.4.2)
Setting.default_notification_option
=> "only_my_events"
```

Should be ok
