Description			
<p>Hi everyone, I installed the latest version of Redmine and I started to try the wiki. I wrote a simple page with titles and subtitles, and at the very beginning of the page I put:</p> <pre>{{>toc}}</pre> <p>to get the table of content on the top right corner.</p> <p>Actually as you can see the result is quite disturbing because I would have expected to get the TOC under "Modifier Surveiller".</p> <p>I think it may be a UI bug.</p>

Revision 22885 - 2024-06-19 16:06 - Go MAEDA

Fix misalignment issue when displaying the table of contents (TOC) on the right of wiki page (#34473).

Patch by Mizuki ISHIKAWA (@ishikawa999).

- Status changed from New to Confirmed

- Affected version changed from 4.1.1 to 3.4.13

I have confirmed the issue with Redmine 3.4, 4.0, and 4.1. It occurs when "`{{>toc}}`" is placed at the first line.

You can avoid the issue by placing "`{{>toc}}`" after the first heading instead of the first line.

This can be solved by using the clear css properties.
