Redmine - Defect #34580

Custom field labels do not contain class "error" when the field value is invalid

2021-01-09 20:37 - Marius BĂLTEANU

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:	4.2.0			
Resolution:	Fixed		**Affected version:**	

Description

When the form contains invalid field values, the class "error" is added only to standard fields. We should add it also to custom fields in order to be able to highlight those fields ([#32764](#)).

The attached patch fixes this.

- *Status changed from Confirmed to Closed*

- *Target version deleted (Candidate for next major release)*

- *Resolution set to Fixed*

Committed as a part of [#32764](#). Thank you.

#6 - 2021-01-11 15:04 - Marius BĂLTEANU

- *Target version set to 4.2.0*

We should keep this in Changelog because there were some changes regarding how the validation messages are stored in the object.
