

## Redmine - Defect #34681

### LDAP test not running on redmine build server

2021-02-03 20:34 - Alexander Meindl

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	LDAP	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	4.1.1
<b>Resolution:</b>			
<b>Description</b>			
All LDAP tests are skipped on Redmine build server.			
See e.g. <a href="https://www.redmine.org/builds/logs/build_trunk_mysql_ruby-2.6_1384.html">https://www.redmine.org/builds/logs/build_trunk_mysql_ruby-2.6_1384.html</a>			
You will find "(Test LDAP server not configured)" in all test results. This means, that no ldap tests was running because of ldap server was not configured or wrong configured. <a href="#">ldap_configured?</a> checks it and failed.			
This means at the moment no ldap test is running on redmine.org testing infrastructure.			
Solution: Ldap server should be configured on test server.			
PS: LDAP tests are skipped on <a href="https://gitlab.com/redmine-org/redmine/">https://gitlab.com/redmine-org/redmine/</a> , too.			

### History

#### #1 - 2021-02-03 20:43 - Alexander Meindl

Ok, not all tests are skipped, but most of them. All tests which needs a connection to a ldap server.
