Redmine - Defect #34681

LDAP test not running on redmine build server

2021-02-03 20:34 - Alexander Meindl

Status:	New	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	LDAP	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	4.1.1

Description

All LDAP tests are skipped on Redmine build server.

See e.g. https://www.redmine.org/builds/logs/build_trunk_mysql_ruby-2.6_1384.html

You will find "(Test LDAP server not configured)" in all test results. This means, that no ldap tests was running because of ldap server was not configured or wrong configured. ldap_configured? checks it and failed.

This means at the moment no ldap test is running on redmine.org testing infrastructure.

Solution: Ldap server should be configured on test server.

PS: LDAP tests are skipped on https://gitlab.com/redmine-org/redmine/, too.

History

#1 - 2021-02-03 20:43 - Alexander Meindl

Ok, not all tests are skipped, but most of them. All tests which needs a connection to a ldap server.
