

## Redmine - Patch #3477

### Fix access handler to remove the need for a separate svn-private/git-private

2009-06-10 21:54 - Faidon Liambotis

<b>Status:</b>	New	<b>Start date:</b>	2009-06-10
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	90%
<b>Category:</b>	SCM extra	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
The attached patch "fixes" the Apache access handler to accomodate for Apache's "Satisfy any" option.			
Using this, I've successfully served (non-public) projects with authentication to members but no authentication to Redmine's browser. I've updated the sample Apache configuration, it should be quite straightforward.
