<b>Target version:</b> 4.2.0	
<b>Resolution:</b> Fixed	

**Description**

Hello,

I search many possibilites to change the default value of no\_self\_notified when creating a new user.  
Actually default is true.

line 54 to 56 in /app/models/user\_preference.rb

```
unless attributes && attributes.key?(:no_self_notified)
  self.no_self_notified = true
end
```

might be :

```
unless attributes && attributes.key?(:no_self_notified)
  self.no_self_notified = Setting.default_users_no_self_notified
end
```

and add in config/settings.yml

```
default_users_no_self_notified:
  default: true
```

With this change, we can modify the default value without changing source code of Redmine.

this may be implemented in a future release ?

Regards,

Pierre
