Hello,

I searched for possibilities to change the default value of no_self_notified when creating a new user. Actually, the default is true.

Line 54 to 56 in /app/models/user_preference.rb:

```ruby
unless attributes && attributes.key?(:no_self_notified)
  self.no_self_notified = true
end
```

might be:

```ruby
unless attributes && attributes.key?(:no_self_notified)
  self.no_self_notified = Setting.default_users_no_self_notified
end
```

and add in config/settings.yml:

```yaml
default_users_no_self_notified:
  default: true
```

With this change, we can modify the default value without changing the source code of Redmine.

This may be implemented in a future release?

Regards,

Pierre

Revision 20771 - 2021-03-10 04:35 - Go MAEDA

Ability to set default value for "I don't want to be notified of changes that I make myself" (#34787).

Patch by Go MAEDA.
Here is a patch to implement the feature. Admin > Settings > Users will have "I don't want to be notified of changes that I make myself" checkbox.

settings.png

Thank you, this patch is exactly what I've needed.

We should keep this ticket in "New" until the patch is committed.

Setting the target version to 4.2.0.

Committed the patch.
