Category:	REST API		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	

Description

I'm trying to develop a python script with the API and I get the following error:

'<?xml version="1.0" encoding="UTF-8"?><errors type="array"><error>Subject cannot be blank</error><error>Project cannot be blank</error><error>Tracker cannot be blank</error><error>Status cannot be blank</error></errors>'

My code is the following:

```
payload_issue_xml = '<?xml version="1.0"?>' \
'<issue>' \
'<project_id>' + str(project_id) '</project_id>' \
'<tracker_id>' + str(tracker_id)'</tracker_id>' \
'<priority_id>' + str(priority_id)+'</priority_id>' \
'<status_id>' + "1" + '</status_id>' \
'<subject>' +subject +'</subject>' \
'<due_date>' +due_date +'</due_date>' \
'<done_ratio>' + str(done_ratio) +'</done_ratio>' \
'</issue>'

r_issue = requests.post(url, params=payload_issue_xml)
```

History

#1 - 2021-02-26 07:50 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Invalid
