The email of an issue that includes a "source:" link is included in the email as a relative link ala:

```
<a href="/repositories/entry/..." class="source">source:...</a>
```

The link needs to be made absolute.

Not sure if this applies to other links besides source: links..

Ruby version 1.8.6 (i386-mswin32)
RubyGems version 1.3.1
Rails version 2.1.2

This issue should be resolved with the attached patch.

The `link_to` for source: and export: links wasn’t setting `:only_path => only_path`, so the links weren’t being converted to absolute links in emails, etc.

I tested it with this comment. I was able to reproduce it. I get a mail with some invalid link. This should be corrected.
