

Redmine - Defect #34896

PDF thumbnails are not displayed even though "ImageMagick PDF support available (optional)" is checked

2021-03-16 08:21 - Mizuki ISHIKAWA

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description This is a issue related to #34397 . Due to recent changes in ImageMagick, PDF cannot be converted to PNG without rewriting the policy.xml file. https://stackoverflow.com/questions/52861946/imagemagick-not-authorized-to-convert-pdf-to-an-image I think you should check if ImageMagick has permission to convert PDF to PNG and then check "ImageMagick PDF support available (optional)" in Infomation. information.png			

History

#1 - 2021-04-20 18:16 - Plastik Schnitzer

I experience this issue in Redmine version 4.2.0 in the docker version. All PDF thumbnail images are broken, but not image preview thumbnails.

Environment:

Redmine version	4.2.0.stable
Ruby version	2.7.3-p183 (2021-04-05) [x86_64-linux]
Rails version	5.2.5
Environment	production
Database adapter	Mysql2
Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter
Mailer delivery	smtp

The problem that PDF thumbnail images are broken should be improved by rewriting policy.xml.

I think <https://stackoverflow.com/questions/52861946/imagemagick-not-authorized-to-convert-pdf-to-an-image> answer will be helpful.

This does indeed resolve the issue, but I believe the intention of this defect report was to point out the discrepancy between admin/info and what is actually available. It would be really nice if Redmine could alert administrators that PDF support is generally available, but PDF previews are not available.

not available.

You are right.
