Description
From other systems like Mediawiki I know the feature that pressing ALT+S saves all changes. Unfortunately the more obvious CTRL+S is used by the browser itself. It would be very helpful to have the same in Redmine as an abreviation for scrolling down and pressing the button "Anlegen" (German version, Englisch "Create"?).

The upcoming Redmine 4.2.0 supports this feature ([#29473](#)). You will be able to submit a form by pressing Ctrl+Enter / Command+Return (Mac) in a textarea.
