

Redmine - Defect #34921

Do not journalize attachments that are added during a "Copy Issue" operation

2021-03-18 09:47 - Jens Krämer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	4.1.3	Affected version:	
Resolution:	Fixed		
Description			
<p>When copying an issue, the user can change arbitrary values before saving the copy. It is also possible to add attachments here. Before this patch, such attachments were added to the journal entry that is created to hold the "copied from" relationship change.</p> <p>Since no other attribute changes are journalized, but only added attachments, we found that to be confusing. The attached patch which has been extracted from Planio prevents that from happening by checking for `copy?` in `Issue#attachment_added`.</p>			

Associated revisions

Revision 20872 - 2021-03-29 05:32 - Go MAEDA

Do not journalize attachments that are added during a "Copy Issue" operation (#34921).

Patch by Jens Krämer.
