Description

Hi! i would wanna know if its possible to fix the following feature for plugin https://www.redmine.org/plugins/redmine_dmsf when I upload a file and select the version in "letters" for my doc and save it, i got a mistake in it, because then in the file list it appears in negative numbers. When i click into the file id to see the its info it seams to have the correct version there. I attached a image for better understanding.
thanks!

Plugin version: 2.4.4
Redmine version:4.0.3.stable
Ruby version:2.5.5-p157 (2019-03-15) [x86_64-linux]
Rails version: 5.2.2.1

Hi Angelica,

plugins are separate projects of community members or companies and therefore not supported by the core developers of Redmine. Please reach out to the developers of redmine_dmsf via their own project page on GitHub: https://github.com/danmunn/redmine_dmsf

Best regards,

Bernhard
