| <b>Description</b> <p>This patch removes the Rake task "check_parsing_by_psych".</p> <p>In Ruby 1.8, Syck was used as a YAML library, and in Ruby 1.9, Psych was added and the two YAML libraries coexisted. Syck was later removed in Ruby 2.0, and now only Psych is available.</p> <p>The Rake task check_parsing_by_psych was added in the process of making Redmine compatible with Ruby 1.9 (<a href="#">#8847</a>), to check that YAML translation files can be parsed without errors in Psych as well as Syck.</p> <p>However, Syck was removed in Ruby 2.0 and now Pysch is always used to parse when running the rake task update_locales, so check_parsing_by_psych is no longer needed.</p> <p>For these reasons, I propose to remove check_parsing_by_psych.</p> |                          |                        |            |
