

Redmine - Defect #35090

Permission check of the setting button on the issues page mismatches button semantics

2021-04-14 12:23 - Felix Schäfer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	4.1.6	Affected version:	4.2.0
Resolution:	Fixed		
Description			
<p>In source:/tags/4.2.0/app/views/issues/index.html.erb#L16 the link goes to the issues tab of the project settings. The button is only shown if the user has the manage_categories permission but the permission required for this tab is edit_project source:/tags/4.2.0/app/helpers/projects_helper.rb#L28</p> <p>Note that this is only a UI issue, the button might be shown to users that cannot see the tab that it links to or the button might not be shown to users that would be able to see the tab that it links too, but upon following the link the correct permission is checked. There also is no information disclosure associated with this issue.</p>
