Target version:	Candidate for next major release		
Resolution:			
Description			
<p>For now, if you want to be informed about all events of a huge projects portfolio, I have to update the list behind "For any events of the selected projects only..." quite often.</p> <p>It would be really great if we can receive all notifications of the bookmarked projects adding a new option in the notification option list : "For any events of my bookmarked projects only..."</p>
