| <b>Description</b>   |                 |                        |           |
| Hello there,   |                 |                        |           |
| it would be very helpful if we would be able to change the "No Match Found!" message that is included via the third party library tribute.js. I could hardcode it into the file itself, but that just seems odd. |                 |                        |           |
| Best regards   |                 |                        |           |

#### Associated revisions

##### Revision 21377 - 2022-01-22 09:23 - Marius BĂLTEANU

Don't display "No Match Found!" when the inline autocomplete doesn't return any result (#35215).

Patch by Takashi Kato.

##### Revision 21378 - 2022-01-22 09:27 - Marius BĂLTEANU

Merged r21377 from trunk to 4.2-stable (#35215).

#### History

##### #1 - 2021-05-10 16:49 - Takashi Kato

- File patch1.diff added

In the "tribute.js", the "noMatchTemplate" property for each entry in the "collection" is ineffective. (README is confusing. I raise an issue if I can.) The "noMatchTemplate" specified separately from the "collection" is effective.

An empty string is effective if not want to display a message when there is no match. No function is needed. (again, README is confusing.)

##### #2 - 2022-01-06 03:57 - Marius BĂLTEANU

- Assignee set to Marius BĂLTEANU

##### #3 - 2022-01-07 17:30 - Marius BĂLTEANU

- Target version set to Candidate for next minor release

I think it's better to not show any message as Takashi Kato proposes.

##### #4 - 2022-01-22 09:29 - Marius BĂLTEANU

- Tracker changed from Feature to Patch

- Subject changed from tribute.js third party library localization to Don't display "No Match Found!" when the inline autocomplete doesn't return any result

- Category set to UI

- Status changed from New to Closed

- Target version changed from Candidate for next minor release to 4.2.4

Patch committed, thanks!

I didn't merge it to 4.1-stable because of the conflicts.
