Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	4.1.2

Description

Dear redmine community

Issue list DD-MM-YYYY

Issue detail DD-MM-YYYY

Issue edit MM-DD-YYYY

Issue list and Issue details follows redmine date configuration but issue edit always use the MM-DD-YYYY format.

Please, any advice what I'm doing wrong?

- Status changed from New to Resolved

The edit forms (e.g. the issue edit form) use your browser's built-in interface for date entry. As such, the edit field will show the date using your browser's configured locale. The exact interface of the date picker, its configurability and locale entirely depends on your webbrowser.

As such, I believe this is not a bug in Redmine.
