

Redmine - Defect #35252

Project Versions: Default version is not editable

2021-05-17 08:08 - Pan Tau

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Project settings	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.1
Resolution:	Invalid		
Description If you create a new version, then you are able to set it as "Default version". New_version.png After creating you are not able to edit/correct this setting, because the option is missing. Edit_version.png			

History

#1 - 2021-06-02 02:46 - Go MAEDA

- Category changed from Issues to Project settings
- Status changed from New to Closed
- Resolution set to Invalid

The checkbox only appears when you create a new version.

If you want to set/change the default version of a project other than when creating a new version, you can change it in the [Settings] > [Issue tracking] tab of the project.
