Target version:	Candidate for next major release		
Resolution:			

Description

This is a meta-issue to track all related issues concerning the subject and which acts as a singular entity for scheduling (instead of scheduling individual implementation proposals, like #30919).

I suggest to discuss this in forum https://www.redmine.org/boards/1/topics/69072.

Listing all existing implementations patch and agreeing on a design that could meet all requests.

for the moment is see those :

https://www.redmine.org/issues/13839

https://www.redmine.org/issues/30919
https://www.redmine.org/issues/39530

This topic title might let think this is limited to 'Issues', is it the case ?
