Description

Hi,

The "Assign to me" (#29285) feature is very nice and i believe another shortcut would be beneficial.

On our team , issues are being assigned form person A to person B and sometimes there is a lot of "ping pong" between person A and person B.

Person A assigns the issue to person B with comments.
Person B adds his comments and assigns to issue to Person A.
Person A sees the comments and adds is own and assigns the issue to Person B.

If we'll have a "Assign to Previous Assignee" shortcut , it would saves us few clicks and manual user lookup from the drop down (we got 25+ users/groups on the list).

Thnaks in advance.
