

Redmine - Defect #35398

Allow stmp and repository

2021-06-10 22:33 - Lorenzo Castro

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.1
Resolution:	Invalid		
<b>Description</b> Hi! I am developing a server for my university and it turns out that I am using Redmine, but I am a newbie and I have tried many tutorials and none of them work for me. It turns out that I install RoR and Redmine on my virtual machine (ubuntu 20.04) and I upload to Heroku and the basics works, but I have not been able to configure the <b>STMP</b> and the repository to perform an <b>SCM</b> . Someone could help me? At this time the SCM part is more important of my project.
