Description

Omar attached is the change request from to load Patch 1935 the Tax Update. Payroll would like to have this loaded after payroll this week so I think Thursday or Friday night would work best.

Please let everyone know when this has been completed.

Thanks

I believe you meant to enter this on a private Redmine, not the public Redmine.org used to track development on the open source application. I also removed your file upload, it looked like it contained private information. If I was mistaken, could you reopen this issue and describe what the patch is for?
