

## Redmine - Feature #35456

### Group of Users as Assignable Users per tracker

<b>Resolution:</b>	
<b>Description</b> Sometimes we need trackers assignable to a group of individuals regardless of their membership/role on any projects. Instead of adding users or groups to every single project (defeating the use of members/roles), would like this feature:  Have as an option per tracker, to allow selecting a Group as the list of assignable users instead of the current project members.
