Resolution:				
Description				
Please add support for ssh access to svn repositories				

History

#1 - 2007-06-14 03:48 - Hubert Krukowski

svn+ssh:// syntax is not accepted by this (repository.rb):
validates_format_of :url, :with =>
/^(http|https|svn|file):\/\/.+/i

But if you specify svn+ssh:// syntax by hand in the database
- then it works ok.

An easy fix? :-)

#2 - 2007-06-23 21:29 - Robert Berger

This would be a helpful addition for me as well...

#3 - 2007-09-22 17:03 - Jean-Philippe Lang

Fix committed in [r751](#).
You'll have to setup a passphrase-less ssh key to access the
repository.
