```

```
/usr/bin/mongrel_rails:282
```

```
Rendering /opt/redmine/public/500.html (500 Internal Server Error)
```

i did

```
rake db:migrate RAILS_ENV="production" --trace
```

any suggestions !

## History

---

### #1 - 2009-06-28 16:41 - Jean-Philippe Lang

You didn't properly upgrade your database. Migration 100 doesn't seem to have been run.

### #2 - 2009-06-28 16:50 - blues rhythm

ok ... some light if you may !!

### #3 - 2009-07-01 14:15 - blues rhythm

- Status changed from *New* to *Resolved*

- Assignee set to *Jean-Philippe Lang*

ok, the problem is solved after (completing) the migration (manually) with the (no help) of the awesome (formal) web site redmine is a ok but with with no documentations it's a nightmare & it won't survive.

ah, I altered the chngesets table in the redmine database & added the user\_id

```
ALTER TABLE changesets ADD user_id integer;
```

### #4 - 2009-07-02 20:25 - Jean-Philippe Lang

- Status changed from *Resolved* to *Closed*

- Resolution set to *Invalid*

There must be a good reason why migration 100 hasn't been executed, like a duplicate migration.  
Thanks.
