Target version:				
Resolution:	Invalid		**Affected version:**	4.1.3

Description

After updating from version 3.3.2 to 4.1.1 Gantt chart has broken.

Checking the Inspector of my browser to fins an clue of what's happening I could find this points. Only the first td don't have the inline css "display: none" and in the last one I've added 200px width just to see.

Any idea of how to fix it?

If you are using any plugins, could you try again without plugins?

Just test it, any effect.

#3 - 2021-07-29 14:44 - Holger Just

- Status changed from New to Needs feedback

It appears you are using a custom theme which may not be fully compatible with Redmine 4.1.

Please make sure that this issue also occurs when using the default Redmine theme (in Administration -> Settings -> Display).

That's the problem, I will fix it. Thank you guys!

#5 - 2021-08-04 14:56 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to Invalid
