<b>Description</b> Hello all,  I applied the patches from <a href="https://www.redmine.org/issues/23894">https://www.redmine.org/issues/23894</a> because I needed them.  Pull request is at github, I have no idea how to merge that to svn (sorry about that).  <a href="https://github.com/redmine/redmine/pull/128">https://github.com/redmine/redmine/pull/128</a>			
<b>Related issues:</b> Is duplicate of Redmine - Feature #23894: Expose repository through REST API <b>New</b>			

### History

#### #1 - 2021-07-29 14:34 - Holger Just

- Is duplicate of Feature #23894: Expose repository through REST API added

#### #2 - 2021-07-29 14:39 - Holger Just

- Status changed from New to Closed

Redmine does not use GitHub (or git for that matter) for active development. The Subversion repository is the single point of truth, the GitHub project is only a read-only mirror.

Discussions about the patch should be done on its original issue [#23894](#).
