

Redmine - Defect #35664

Inconsistencies in rendering of subproject data on Issues Reports

2021-08-02 15:26 - Mischa The Evil

Status:	New	Start date:																									
Priority:	Normal	Due date:																									
Assignee:		% Done:	0%																								
Category:	Issues planning	Estimated time:	0.00 hour																								
Target version:		Affected version:	4.0.0																								
Resolution:																											
Description																											
There are several inconsistencies in rendering of subproject data on Issues Reports after the addition of subprojects-inclusion introduced in #2529 and its extension by #34185. I've put my findings in a table:																											
<table border="1"><thead><tr><th>Block:</th><th>Shows subproject values:</th><th>Shows subproject data:</th></tr></thead><tbody><tr><td>Tracker</td><td>yes, if with_subprojects=1</td><td>yes, if with_subprojects=1</td></tr><tr><td>Priority</td><td>yes, always **</td><td>yes, if with_subprojects=1</td></tr><tr><td>Assignee</td><td>no</td><td>yes, if with_subprojects=1 and only if subproject value is available in current project</td></tr><tr><td>Author</td><td>no</td><td>yes, if with_subprojects=1 and only if subproject value is available in current project</td></tr><tr><td>Version</td><td>yes, always</td><td>yes, if with_subprojects=1</td></tr><tr><td>Subproject *</td><td>yes, always *</td><td>yes, always *</td></tr><tr><td>Category</td><td>no</td><td>no</td></tr></tbody></table>				Block:	Shows subproject values:	Shows subproject data:	Tracker	yes, if with_subprojects=1	yes, if with_subprojects=1	Priority	yes, always **	yes, if with_subprojects=1	Assignee	no	yes, if with_subprojects=1 and only if subproject value is available in current project	Author	no	yes, if with_subprojects=1 and only if subproject value is available in current project	Version	yes, always	yes, if with_subprojects=1	Subproject *	yes, always *	yes, always *	Category	no	no
Block:	Shows subproject values:	Shows subproject data:																									
Tracker	yes, if with_subprojects=1	yes, if with_subprojects=1																									
Priority	yes, always **	yes, if with_subprojects=1																									
Assignee	no	yes, if with_subprojects=1 and only if subproject value is available in current project																									
Author	no	yes, if with_subprojects=1 and only if subproject value is available in current project																									
Version	yes, always	yes, if with_subprojects=1																									
Subproject *	yes, always *	yes, always *																									
Category	no	no																									
Legend:																											
*	=	only shown when @project.children.any? == true																									
**	=	these values are global																									
with_subprojects=1	=	Setting.display_subprojects_issues == 1
