

Redmine - Defect #35669

Prints of Issues Report details are messed-up due to the size of the graphs

2021-08-03 00:56 - Mischa The Evil

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Issues planning	Estimated time:	0.00 hour
Target version:	4.1.5	Affected version:	4.1.0
Description			
<p>When printing the Issues Report details I get lots of unwanted pages due to the large graphs (graph sizes should additionally be decreased independent of this issue, though [see #35670]) that are beneath the table. And the graphs that are actually printed are messed-up due to their size too.</p> <p>I think the best solution currently is to hide the charts when printing, like so:</p> <pre>diff --git a/app/views/reports/_details.html.erb b/app/views/reports/_details.html.erb index 9b8f3b5e5..701591c74 100644 --- a/app/views/reports/_details.html.erb +++ b/app/views/reports/_details.html.erb @@ -25,10 +25,10 @@ <% end %> </tbody> </table> -<div class="issue-report-graph"> +<div class="issue-report-graph hide-when-print"> <canvas id="issues_by_<%= params[:detail] %>"></canvas> </div> -<div class="issue-report-graph"> +<div class="issue-report-graph hide-when-print"> <canvas id="issues_by_status"></canvas> </div> <%= javascript_tag do %></pre>
