Redmine - Feature #35686

Add configured theme and whether it includes JavaScript to Redmine::Info.

Target version:				
Resolution:	Duplicate			

Description
Given that a fair amount of (UI) issues are caused by a third-party theme (see e.g. recently closed #35258 and #35534), it would be really helpful if information about the configured theme and whether it includes JavaScript is added to Redmine::Info. Example: 2021-08-05_01-36-12.png I'll leave a patch against current trunk.

History

#1 - 2021-08-05 03:14 - Go MAEDA

I am in favor of adding this feature.

I have seen UI troubles caused by third-party themes many times. Showing information about the current theme should make troubleshooting easier.

There is a similar issue: #32116

#3 - 2021-08-05 07:33 - Go MAEDA

- Related to Feature #32116: Add configured theme to Redmine::Info added

#4 - 2021-08-06 23:12 - Mischa The Evil

- Status changed from New to Closed

- Resolution set to Duplicate

I had totally missed the earlier issue. Thanks for pointing it out.
I've transferred this issue's attachments and text to #32116 and I'll close this issue hereby accordingly.
