<b>Description</b>	
<p>Currently it somewhat looks like versions are crammed together one after another on the Roadmap. I think it would be good to give them some additional space.</p> <p>This can easily be accomplished with some additional CSS like:</p> <pre>public/stylesheets/application.css   2 ++ 1 file changed, 2 insertions(+)</pre> <pre>diff --git a/public/stylesheets/application.css b/public/stylesheets/application.css index e117bc1d0..d09310581 100644 --- a/public/stylesheets/application.css +++ b/public/stylesheets/application.css @@ -640,6 +640,8 @@ div#roadmap .wiki h2 { font-size: 110%; } div#roadmap h2, div#roadmap h3 {padding-right: 0;} body.controller-versions.action-show div#roadmap .related-issues {width:70%;}  +div#roadmap .version-article {padding-bottom: 12px;} + div#version-summary { float:right; width:28%; margin-left: 16px; margin-bottom: 16px; background-color: #fff; } div#version-summary fieldset { margin-bottom: 1em; } div#version-summary fieldset.time-tracking table { width:100%; }</pre> <p>Note: the above given diff is against trunk @ r21131.</p>
