Description It would be nice if we could edit our existing issue comments to make minor corrections etc. I think this would just involve ticking the 'Edit Own Notes' permission for the Non-Member role. If the permission is turned off intentionally though, that's fine.

Might also want to include editing the forum messages too.

#2 - 2010-05-02 22:48 - Muntek Singh

This is highly needed.

- Status changed from New to Closed

- Resolution set to Fixed

I don't know when it was enabled, but both "Edit own note" and "Edit own messages" are enabled currently.
