Redmine - Defect #3589

User removed from project - still getting project update emails

2009-07-06 02:38 - Galaxy King

Status:	Closed		**Start date:**	2009-07-06
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:	0.9.0			
Resolution:	Fixed		**Affected version:**	0.8.7

Description

When a user is added and removed from the project, after removing the user from project - he still keep on getting email regarding that project.

- Create project
- Add user 1
- Add user 2
- Add user 3
- Enabled "Message Add" in Admin
- Create form and start conversation
- Email goes to all user's
- Remove user 2 from project
- Email is still going to user 2 about form updates, even user 2 is not part of the project.

Associated revisions

Revision 3121 - 2009-12-03 22:28 - Jean-Philippe Lang

Do not notify users that are no longer allowed to view an issue (#3589, #4263).

Revision 3167 - 2009-12-13 13:39 - Jean-Philippe Lang

Makes user unwatch what he can no longer view after its permissions have changed (#3589).
A rake task (redmine:watchers:prune) is also added to prune existing watchers.

Revision 3169 - 2009-12-13 15:26 - Jean-Philippe Lang

Make sure users don't get notified for thing they can not view (#3589).

History

#1 - 2009-07-18 10:17 - Jean-Philippe Lang

I think user 2 is still watching the ticket. That's why he receives emails about updates.
Can you check ?

#2 - 2009-07-19 02:00 - Galaxy King

Yes, you are right - once the user2 was removed from project, issue which were watched by user2 did not remove him.

Issues - one can see who is watching and can be removed
Forum's - if i post a message in forum, user2 is still getting the message, after i removed user2 from the project.

But, all in all, you are right. It has to do something with "watching" status.

Thanks - let me know if more testing is required.

Also, is there a way for admin to remove users from watched list? Thanks

#4 - 2009-12-13 13:38 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.9.0

- Affected version (unused) set to 0.8.7

- Resolution set to Fixed

- Affected version set to 0.8.7

Fixed in r3167. Changing user permission now removes watchers lists accordingly.
You can use the following task to prune existing watchers from your database:

```
rake redmine:watchers:prune RAILS_ENV=production
```
