Were currently on 4.2.1.

Here is an evidence from Redmine 5.0.0.stable.21546. However, it seems to be a feature, that CSV export ignores any line selection and exports all lines instead.

##### #4 - 2022-08-30 09:35 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Wont fix

The CSV export feature is supposed to export all entries selected by the filter. And the checkboxes are for selecting the target for bulk edit, not for CSV export.
