Resolution:	Wont fix		**Affected version:**	

Description

If you want to export certain rows in the time-entries, all columns are exported anyway.

How reproducible:

1. open time entries
2. select specific rows
3. retrieve via CSV

I cannot reproduce the issue. What version of Redmine are you using?

Were currently on 4.2.1.

- File csv_export.png added

Here is an evidence from Redmine 5.0.0.stable.21546. However, it seems to be a feature, that CSV export ignores any line selection and exports all lines instead.

- Resolution set to Wont fix

The CSV export feature is supposed to export all entries selected by the filter. And the checkboxes are for selecting the target for bulk edit, not for CSV export.
