Description			
I would like to be able to customize the description field so that it could look like that: [[http://code.google.com/p/googletest/issues/entry]]

+1!

This would be nice in case i'd like to advise users on how to describe some specific type of issue. For instance:

Issue: Bug
Default description:
Please fill in steps to reproduce, expected behavior and actual behavior.

Issue: Meeting Report
Default description:
Fill in attendees, meeting subject, topics discussed and pending actions. Also create relation links from this issue to any issues generated on this meeting.

And so on...

- Is duplicate of Feature #643: Issue description templates added

#3 - 2017-06-07 11:56 - Go MAEDA

- Category set to Issues
- Status changed from New to Closed
- Resolution set to Duplicate

Not implemented yet but closing as a duplicate of [#643](#).
